# PRODUCT MANUAL

1. **Product Informaton**

**产品名称 Product Name**: Integrated circuit-module

**型号 Model**:

**批次号/序列号 Batch/Serial Number**:

---

## 2. MANUFACTURER & EU REPRESENTATIVE INFO

- **Manufacturer: Shenzhen Baishun Ming core Electronics Co., LTD，12H-1, City 100 Building, No.4 Zhonghang Road, Huahang Community, Huaqiang North Street, Futian District, Shenzhen，Guangdong Province，China，518000，86-13610198138，chenjq1902@163.com**
- **EU Authorized Representative: Yating He，Germany，69 Mainzer Landstrasse Frankfurt am Main Hessen 60329，49-69332967674，E-CrossStu@web.de**

## 3. Compliance Information

### For Electrical/Electronic Components:

**This product complies with the applicable requirements of the RoHS Directive (2011/65/EU) regarding the restriction of hazardous substances in electrical and electronic equipment.**

**It may also fall under the scope of the REACH Regulation (EC) No 1907/2006 concerning the registration, evaluation, authorization, and restriction of chemicals.**

**If applicable, the product meets the Low Voltage Directive (2014/35/EU) and/or the Electromagnetic Compatibility Directive (2014/30/EU), and carries the CE marking where required.**

**NOTE: This product is intended for integration into end-use devices by qualified personnel. The final product in which this component is used must comply with all applicable safety and regulatory requirements in the target market.**

## 4. Safety & Warnings

 **Important Safety Information**

**This component is intended for use by qualified engineers or technicians. Improper handling or integration may result in product failure, electric shock, or fire hazard.**

**1.Warning: Keep away from children and non-professional users.**
**2.Do not use if the component shows visible damage, such as cracks, deformities, or leakage.**

**3.Avoid exposure to moisture, water, or extreme temperatures. Store in a dry, static-safe environment.**

**4.Handle with care to prevent electrostatic discharge (ESD). Use appropriate ESD protection during installation.**

**5.Do not exceed the specified electrical ratings (voltage, current, temperature, etc.) provided in the datasheet.**

**6.Install and operate only in accordance with the provided technical documentation and applicable standards.**

**7.If integrated into a final product, ensure the end device complies with all relevant safety regulations for the target market.**

## 5. Instructions for Use

**1.Installation & Integration Guidelines:**

**2.Before First Use: Verify compatibility with the target circuit by consulting the datasheet.**

**3.Handling: Use anti-static wrist straps and mats to prevent ESD damage.**

**4.Mounting/Soldering: Follow recommended soldering profiles and mechanical mounting instructions.**

**5.Testing: After integration, perform appropriate electrical and functional tests.**

**6.Storage: Keep in original packaging until use, in a dry and static-safe environment.**

**7.NOTE: For detailed electrical and mechanical specifications, refer to the product datasheet.**
